

BIP description:

Are you ready to become a confident, inspiring, and effective educator? Join our Erasmus Blended Intensive Programme (BIP) "Train the Trainer: Professional Teaching Skills Development"!

Through a mix of interactive workshops, this dynamic programme is designed to equip you with the pedagogical skills needed to design, deliver, and evaluate high-quality learning experiences. Drawing on internationally recognized standards, you will explore the core principles of competence-based training. You will step into the shoes of a modern trainer, understanding group dynamics, and mastering various assessment techniques. Furthermore, you will learn how to select appropriate training aids and adapt your teaching activities to different learner needs. Throughout the course, you will grow your facilitation and communication skills while networking with international colleagues.

Beyond the classroom, your experience will range from exclusive tours of our survival theatre and simulators to exploring the vibrant local culture with a historic guided tour of Riga Old Town.
